

Chaparral High School hosts:

Selective Colleges Admissions Panel

Tuesday, October 23, 2018

6:30 - 8:00 p.m.

Chaparral High School Auditorium

- Panel will consist of local alumni interviewers from Harvard, Yale, Princeton, MIT, Stanford, Dartmouth and Duke University.
- The program is most beneficial to underclassmen since gaining admission to a selective college increasingly involves a commitment on the part of the student from early on in their high school career.
- For parents and high school students, there are a lot of questions to ask: Is it worth pursuing acceptance by a selective college? Can I afford it? What will it take for me to gain admission?
- This panel is intended as an open discussion to help answer these and other questions.
